

ARCHE NOAH HOME Philippines

A START OF SOMETHING NEW— Haniya has been a part of AN for almost a decade now. When she found out that a new initiative is in the works, she expressed her thoughts and feelings. *“Upon learning that new children are coming, I felt excited because it’s almost as if we are having new siblings. And since they are way younger than us, I am excited to be a role model and teach them everything they want to learn. I also want to share to them my experience being in the home for almost ten years now. The home will be merrier.”*

WE GOT NEW FAMILY MEMBERS!

The children who will be part of the new initiative of Arche Noah.

As the new school year started and as AN enters 11th year, we have finally welcomed the new members of the home and part of the new initiative, Day Care Drop-Off.

We welcomed eight children in the home in August. The children are ages 10-13 year old and are in the 5th-7th Grade. For a start, they were provided with school supplies, toiletries and snacks.

“I believe this is my calling. This is my fulfillment. Ten years in the home flew by so quickly. And now that we have taken in more children, the excitement and happiness are adding up. I am excited with the future holds for us in the home. I am looking forward to our journey together.” Sarah said, the house mother of AN.

NVC YOUTH CONFERENCE

The NVC Youth Conference was held last November 10-12, 2023 in Cebu City. With this, 10 children from Arche Noah were able to fly to Cebu and join the conference. This is something new for them because it was everyone’s first time traveling via airplane. There were excitement and nervousness.

The conference also became an instrument to meet new people and share experiences. The AN children may not be new to NVC (Nonviolent Communication), yet it is an unforgettable experience according to them.

“Never in my wildest dream did I imagine I would be able to ride an airplane. And it was a great honor to share my experience on NVC.”
